DR. TEMPLETON SPEAKS.

And Springs a Sensation With Reading of a Letter to National Banks Showing a Seeming Conspiracy Against the Farmers.

Halifax, July 15.—At a largely attended meeting of the Halifax County Farmers' Union, held here Saturday, the Union in executive session went on record in the form of resolutions against section 8 of the post-office appropriation bill now pending in Congress. The resolution declares that this section, which has to do with the establishment of a parcels post, is not what the people want and have been asking for. Moreover, it is provided that copies of the resolutions be sent to the North Carolina representatives in both branches of Congress with request to act against the measure.

DR. TEMPLETON SPEAKS.

These resolutions were passed at the morning session. The principal event of the afternoon session was a speech by Dr. J. M. Templeton, of Wake county, vice-president of the State organization. County President H. S. Harrison, presided over the afternoon session. Dr. Templeton's address purported to show that the farmers are not getting their proportional part of what they produce.

The sensation of his speech was the reading of a letter said to have been sent out by a New York bank to all the national banks asking that loans be withheld. The speaker declared that if the central bank bill becomes a law the laboring class of people will be in the same place the negro was fifty years ago.

The letter which he read was as follows:

New York, N. Y., Nov. 23, 1910. "Dear Sir: It is quite possible that the next few weeks will see a strain on the money market not unusual at this season. Earlier in the year we called attention to the large volume of loans in the National Banker, and while later reports have shown a beneficial decrease in that item, the figures in our judgement are still too high, and should be further reduced. "It is very evident that if we are to continue to meet our foreign obligations without large shipments of gold, we must have a surplus of produce and merchandise to sell at prices that will attract foreign buyers. "For a long time the United States has been a better market to sell in than to buy in. We need to make it a better market to buy in, and this means lower prices, and in this connection it seems to us that it is no part of the function of banks to continue to carry the products of the soil for advances beyond a price that furnishes the producer with a reasonable profit."

Mr. Bryan Goes to Oxford.

Mr. Paul Q. Bryan left Monday for Oxford where he will locate for the practice of law. Mr. Bryan is one among the brightest young men that has ever gone out from this town and we predict success for him in his chosen profession. We commend Mr. Bryan to the people of Oxford and Granville county.

Taken to Rocky Mount.

Mr. E. L. Bracy, of Baltimore, Md., and Mr. Otis D. Bracy, of Rocky Mount, were here the past week looking after the comfort of their father, Mr. Geo. D. Bracy, who was taken ill about two weeks ago. These young men carried their father to Rocky Mount Monday afternoon, with the hope that he may soon be restored to health.

Believe in Your Town.

What is your town good for? Why is it good for what you think it is? Write it down in black and white. What you write will constitute one or more of the advantages of your town. Do you really know your town? If you do not, you cannot speak or write about its advantages or possibilities.

The only way to know your town is to study upon it. If you do not know the resources upon which your town can draw for its thrift and future development, you are in a bad fix. Some thinking and close study might make you believe in your town. You can and should know your town and when you know it, you will believe in it.

No man is worth much to a town unless he believes in it. If he lives in it and does not know his town, it is his next move. It might pay his town for him to move out and give his place to a true believer. Learn to believe in your town.—Wilmington Star.
